

Extend Internet access to any room over existing electrical wiring

- Extremely fast Gigabit speeds
- Extra noise-filtered power outlet
- Perfect for connecting smart TVs, streaming players & game consoles
- Ideal for 4K HD streaming & lag-free gaming

Overview

Use your existing electrical wiring to extend your Internet access to any room in your house. Just plug the Powerline 2000 + Extra Outlet into any electrical outlet then plug in your new network connection. It's that easy. With 2000Mbps speed, the Powerline 2000 adapter is perfect for connecting smart TVs, streaming players, and game consoles. Plus, the extra outlet provides power for additional devices.

Next Generation Powerline

Extremely fast speed—up to 2000Mbps.

Reliable Network

Connect multiple adapters to expand your wired network reliably.

Noise-filtered Power Outlet

Provides an extra outlet and improves the overall Powerline network performance.

Latest Technology

Multiple data streams (MIMO) offer improved coverage and speed.

Plug-and-play

Set up in minutes, no need to configure or install software.

Push-and-Secure

Encrypts Powerline network connections with the touch of a button.

NETGEAR Powerline is one of the easiest ways to extend a wired Internet connection to any room without running long wires. Just plug into any electrical outlet and connect up to two of your devices at a time to the Ethernet ports. It's that easy.
