

Featuring our JIC-195 Stainless Steel Communication Scissors in a convenient molded pouch with a belt clip, the TK-395 Communication Scissor & Pouch Kit is the essential tool kit for any telecom or electrical technician. This kit features the following:

- One blade is serrated for a tight and secure grip while cutting
- High carbon stainless steel cutting blades for maximum strength and durability
- Two stripping notches strip 18-20 AWG and 22-24 AWG wires
- Dual component Nylon-Santoprene™ grip for greater comfort and ergonomics
- Adjustable screw (hidden underneath the hinge cap) configures the tightness of the blades to your needs
- Durable molded nylon pouch keeps tool safe and secure
- Removable belt clip attaches easily to any belt
- Cuts Kevlar® and other materials with ease

Kit Includes: JIC-195 - Stainless Steel Communication Scissors & H-25 - Molded Tool Pouch
