

μ MicroLC

FEATURES

- Compatible to generic LC
- Significant space saving on back end of faceplate
- Simple bayonet mechanism
- Cost effective +
- IEC Grade B compatible

APPLICATIONS

- FTTH, FTTA
- On board optics
- Test equipment
- Plug and Play module

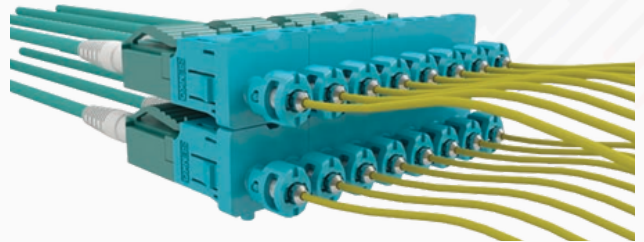

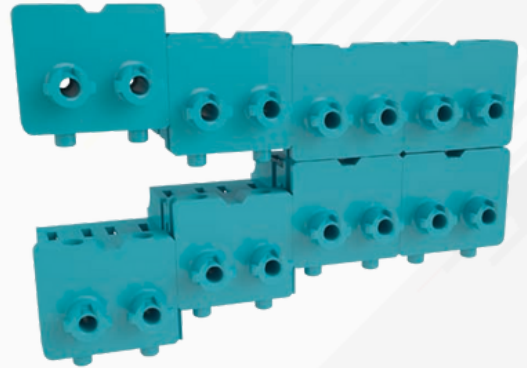

SPACE
SAVING
31MM

Introducing the new Micro LC Stackable Adapters. You can stack them vertically & horizontally as many as you need.

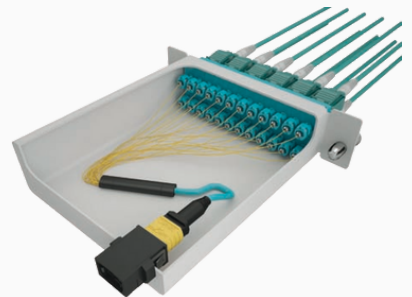

60% increase in density

Because of the Micro LC small size, it eliminates the need for finger access to the LC connectors latch mechanism, therefore LC adaptors can now be mounted much closer than spacing required in the past.

Use the Micro LC Stackable adapter to create a staggered array to assist with fiber management in densely populated panels/cassette
